

Azalea EHR for Hospitals

A Certified, Cloud-Based EHR. Designed for Hospital Needs.

Improving care while boosting the bottom line.

Azalea Health delivers a HIPAA compliant, 100% web based solution, that is fully integrated with telehealth and billing services. Built for critical access hospitals and health systems, Azalea's unified platform is a one patient one record experience that seamlessly syncs data between your hospital and ambulatory clinics.

Our intuitive and customizable workflows guide providers through care delivery with visual cues, status changes, and real time alerts to ensure field completion. Our workflows seek to maximize reimbursement and promote utilization across the board.

With AzaleaONE, we are with you every step of the way.

Cloud-Based

With a zero server footprint and minimal IT support required, you can now integrate patient records across ambulatory, emergency department and inpatient settings.

Affordable

With minimal upfront investment costs, low monthly pricing and no capital expense requirements, Azalea Health offers a superior value.

Financial Success

Our solution is designed to be a benefit, not a hindrance. From a low cost of ownership to professional services that deliver immediate revenue cycle enhancements, Azalea supports your organization's financial goals.

Built For You

Configurable to your unique workflow, Azalea's fully integrated EHR is built with your health system's needs in mind.
